Presentation of Local Sports Committee for disabled athletes

Created in 1983, the local Sports Committee for disabled athletes is involved in the various fields related to the practice, promotion and development of sport for disabled people (physical and/or sensory disability) throughout the department.

Its mission includes the organization of championships and competitions for the disabled people such as the boccia championship, the blowpipe challenge and, more particularly, the organization of international tournaments in the Bouches-du-Rhône. For the second time in its existence, it is organizing an international goalball tournament. The organization of this tournament is a great way of discovering and promoting the discipline for the local authorities as well as for the various disabled sports members of the department.
